Comments:
 Please find attached a copy of the remarks section of your last response. Please provide your typed name with a signature above on it. Please also find a blank transmittal form to accompany your signature page. Please fill this out as well. Either mail them back through snail mail or you can fax it to the above fax number (571) 273-8300.

Hope this helps.

Danton DeMille
Primary Examiner
GAU 3771

Number of pages 3 including this page

REMARKS

Applicant notes that as we discussed in our telephone confrence each one of the references cited by the Examiner discloses an exercise device and only works the abdominal muscle. Except Freyman which is clearly for stabilization. In the field of medicine as we discussed we can no longer tie patient down not even for their own safety without a doctors order. So even his device would be considered obsolete . Freymans device would still cause the patient to push in their face and not in their perineum or rectal area where it is need to help with delivery. Please reconsider that The wording has been changed to fit what the rope actually does and that the loops aren't used for anything except to keep me as a nurse to keep from handing it to my patient a hundred and fifty times. I am sending you a drawing that I give to some of the mothers in our child birth classes that wish to try the rope to better under stand where her hands go. Please reconsider my patent. I simply redirects their pushing efforts. No New matter has been added the wording from abdomin to perineal and rectal areas have been changed Thank you for you time.

TRANSMITTAL FORM

(to be used for all correspondence after initial filing)

Application Number	
Filing Date	
First Named Inventor	
Art Unit	
Examiner Name	
Attorney Docket Number	

Total Number of Pages in This Submission
